

# Keep On Workin'

Chorus:

We keep on, on workin'  
even when haters want to see us in the dirt and  
we keep our heads up, that's for certain  
stay focused and keep working

Verse 1:

The best things in life are the things that are gained  
By putting in work and effort to obtain  
Watch me maintain and achieve all my dreams  
Find the inner vision to make 'em reality  
See I envision me soon/ walking across that stage  
And all those trash talking fools/ will straight up be amazed  
Plus I feel the loving gaze/ coming from my family  
I graduated I did it and made it actually  
But practically I had to start with the end in mind  
Now I got to watch how/ I am spending my time  
I know I could be playing video games for hours  
So I got to refrain and maintain some will power  
First do my homework and then I'll play the games  
And with that simple flip I switched up my grades  
I went from a C to a B, it was so easy  
I'm gonna walk that stage please believe me

(Chorus)

Verse 2:

Why should I even work, what is the point?  
When I could just chill and puff a joint!  
Be easy, take the path of least resistance  
When I see a challenge in my way, keep my distance  
Yeah, relaxation is my hustle  
I do what I want when I want, it's what I do.  
Yeah, and I don't see nothing wrong  
With living off my girl and living with my mom  
So what? You think it is gangsta? You think it is raw?  
To hang up potential to work hard at the door?  
I'm sorry dude, mad cats are laughing at ya.  
Cuz that way of life is going to come back and catch ya.  
Like an uppercut to the chin one day  
No job prospects except minimum wage  
Kicked out the house no girl to depend on  
No money to spend this is the road you dead end on

Bridge (Repeat 2x):

With my fingers in the dirt I'm gonna work I'ma work  
Put the seed in the earth until the season where it's birthed  
With my mind on my worth, I'ma work, I'ma work  
Knowing my potential is the key to the search

(Chorus)

Verse 3:

I have been working like a worker bee swinging from the circuitry,  
navigating perfectly do it with an urgency  
Shovel is on my shoulder I travel like I am fortified  
Hum beat with the battle cry, cobbler with the saddle ride,  
determined to make it through working like a servant dude  
life will throw a curve at you hit it hard and bunt a few  
If you are not willing to work what you dream won't come to you  
So you got to get it done and do it like it is something new  
You are in a position to move a mountain out the way  
Drop you shoulder drive your legs push those rocks into the bay  
Build you castle on that rock, get it started never stop  
Find out what could hold you back ,expose it like a crooked cop  
Everyone of us is looking for something that will satisfy  
People think avoiding work will do it, family that's a lie  
If you want to be the kind of person you were meant to be  
Dig into that work ya'll physically and mentally

(Chorus)
