

# Reality Ride: Life's Big Ride

Where are you in life's big ride?  
On an upward swing or downward slide  
What's your own reality?  
Are you on your way to victory?  
How will your life be different  
If you change the way you act  
You can stay there in the easy loop  
Or jump on the harder track

You'll have to search yourself inside  
When you decide which line you'll ride  
You must own the consequences  
You build bridges or you make fences  
It's waiting there to win or lose  
Be wise with the track you choose

Yes the ride's about reality  
What has been and what can be  
It's in your head and in your hands  
Your life will follow your commands  
Stay on the track that keeps you free  
Don't miss that golden opportunity  
With good things up around the bend  
You'll find it's worth it in the end

Ride of reality, be what you want to be  
We're in the land of opportunity  
Don't treat this ride too carelessly  
Pay attention to the signs  
Don't wanna hit the wall too many times  
Gotta treat this ride respectfully  
Choose your coasters carefully
